

LOWER RATES OR ELSE? NYU IS HOLDING US HOSTAGE.

NYU is holding the economic proposals that matter to us hostage to their insistence on paying League NBF rates, including:

- Registered Nurse Demands
- Pro-Tech Demands
- Wage Parity Demands
- Across the board raises

NYU came with more of the same on September 18. They're trying to make us believe that they can't pay the same rates for our healthcare that apply to all other non-League facilities. Don't get it twisted. NYU is one of the richest hospitals in New York City, and they can afford to play by the rules.

NYU said they left the League to do better by us, but so far the only proposals they've made do WORSE by us. Since they left the League we've feared that they did this to slash our healthcare, and now our fears seem to be coming true.

It's clear that NYU executives think they can manipulate us into believing their spin. Now, we need to show them our unity and strength by hitting the streets! Are we going to let them take away our healthcare?

GET INVOLVED TODAY! Join us for informational picketing Sept. 27! 11a.m.-3p.m.

• NYU Langone-Tisch • NYU Langone-Brooklyn • Hospital of Joint Diseases (HJD)

The only way we'll win a fair contract with NYU is by showing them our critical mass. NYU says they're made for New York. Our question is whose New York? Certainly not ours.
